AVVERTENZA

Per soddisfare l'impegno assunto nell'Avvertenza premessa al 5° Supplemento di questa Parte II del nostro Catalogo delle pubblicazioni periodiche, diamo oggi alle stampe l'Indice generale de' sei volumi del medesimo venuti finora alla luce, nei quali sono registrati gli articoli di carattere biografico, estratti dai periodici posseduti dalla Biblioteca della Camera, fino a tutta l'annata 1906. Questo Indice, non solo serve a far vedere a colpo d'occhio se e in quali dei detti volumi si trovino indicazioni risguardanti una data persona, ma anche a correggere parecchi degli errori che vi sono sfuggiti. Come abbiamo già detto in altra occasione, questi errori sono pur troppo inevitabili, così per la mole e l'urgenza sempre incalzante del lavoro e per la scarsità dei mezzi a disposizione dei compilatori, come, e più ancora, per difetto dei titoli originali degli articoli, pubblicati in varie lingue e nei quali, non di rado, uno stesso personaggio è indicato sotto nomi o casati differenti e con discordi ortografie. Per ovviare, almeno in parte, a questi errori, nel presente Indice si è cercato di riunire sotto un solo nome gli scritti concernenti la stessa persona e registrati nei volumi sotto nomi diversi, come ad esempio *Beaconsfield* e *Disraeli*, *Pitt* e *Chatham*, *Chekhof* e *Tchekhoff*, *Della Porta* e *Porta* ecc. ecc., indicando in parentesi quadre il numero d'ordine sotto il quale figurano i relativi articoli, od almeno di collegare gli uni e gli altri con opportuni rinvii. Si è pure cercato con ogni diligenza di identificare i varii personaggi di uno stesso casato, mettendone in evidenza i nomi particolari; se ne sono portati al loro luogo, nell'ordine alfabetico, alcuni, che nei volumi erano per inavvertenza spostati, ecc. Se, nonostante queste cure, il Catalogo non risulterà senza difetti, i compilatori fanno assegnamento sull'indulgenza di tutti coloro che, avendo famigliarità con questo genere di lavori, altrettanto faticosi quanto poco dilettevoli, sanno come sia difficile raggiungere in essi la perfezione.
